

Ship your website with AWS Fargate

Avinash Shashikant Dalvi

@AvinashDalvi_

A solid orange semi-circle is located in the bottom-left corner of the slide.

What will cover

- Why this required ?
- WordPress
- Docker
- ECR
- ECS
- Fargate
- Demo

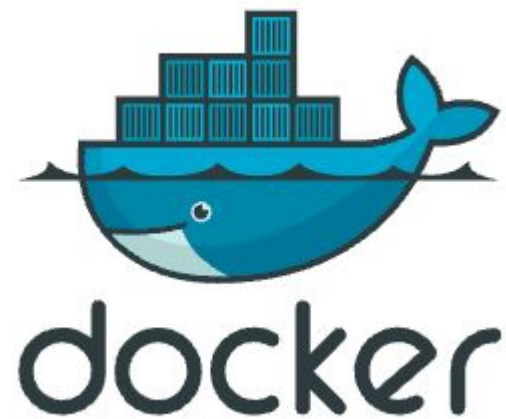

Why this required

@AvinashDalvi_

WordPress is a free and open-source content management system written in hypertext preprocessor language and paired with a MySQL or MariaDB database with supported HTTPS

@AvinashDalvi_

Amazon ECR

Easily store, share, and deploy your container software
anywhere

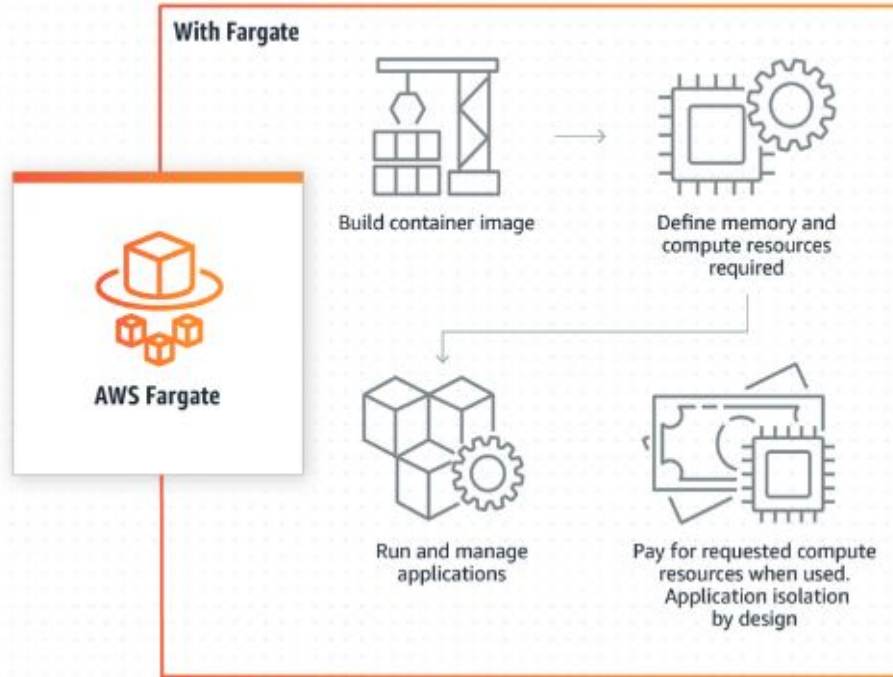

@AvinashDalvi_

AWS Elastic Container Services

- Clusters
- Service
- Tasks
- Task definition
- Container Agent

**Amazon Elastic
Container Service**

Things to consider

- How much control do you need over the underlying infrastructure?
- Are you willing to manage EC2 instances?
- How much flexibility do you need?
- What is your budget?

@AvinashDalvi_
